

Ebizframe ERP SOLUTION DESIGNED FOR PLASTICS INDUSTRY

With decade of Industry Experience behind its powerful Plastics ERP Software Solution , ebizframe understand the unique challenges plastics manufacturers must manage, including:

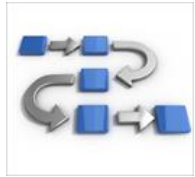

- Identification of Tooling and Moulds
- Re grind Usage and Consumption
- Wastage Tracking
- Real Time Production Monitoring System
- Formulation within BOM and Industry Specific BOM

Specific benefits in Plastics industry that our various clients have achieved using ebizframe ERP

Tooling Controls

Automated Workflows:
 * Reduce Waste and Error
 * Control Business Process

Real Time tracking & Monitor your moulding process

Efficient Stock Management

Product Recall Management
 * Recipe Management
 * Capacity Scheduling
 * Various Report as per Kaizen Specification

10%
Wastage reduced by
90%
Decrease in Stock Shortages
6%
Reduction in Finished Goods inventory
50%
Decrease in production schedule preparation time
5% Reduction in Operating Cost
1 year
ROI

ebizframe helps customers ride on all the 4 components of “The Nexus of Forces” and help them experience the Multiplying effect of SMAC (Social, Mobility, Analytics & Cloud) on Business Growth

“The Nexus of Forces” – a term coined by Gartner — is the convergence of Social, Mobile, Cloud and Analytics (Information) — and has become the platform for digital business. SMAC creates an ecosystem that allows a business to improve its operations and maximize its reach to get closer to the Customer with minimal expense. SMAC is reshaping businesses, consumer behaviors, communication strategies, Customer focus and operational efficiencies of the organizations. It will lead to simplified and adaptive Businesses with faster processes and quick and informed decision making.
